

FONDAZIONE GUIDO BERNARDINI
BETTER EDUCATION FOR BETTER SCIENCE

OnLine Course

**MANAGING A
GNOTOBIOTIC
RODENTS
FACILITY: TOOLS AND
CHALLENGES**

February 2nd, 2023
from 9:00 to 17:00
CET Time Zone

Course aim

The course is focused on the key aspects of the microbiota of laboratory rodents. The speakers will provide very practical information on how to approach, manage and monitor a gnotobiotic facility.

Recipients:

Facility and unit managers and supervisors, veterinarians, persons responsible for overseeing the welfare and care of animals, quality assurance managers, animal technologists, senior technicians.

Learning Outcomes

The course participants should be able to:

- Understand the importance of gnotobiology in biomedical research
- Understand and describe the interactions of the microbiota with the host and how the microbiota is categorized
- Understand how to manage a gnotobiotic facility from the practical point of view (housing technologies and logistics)
- Understand how to work in a gnotobiotic facility
- Understand how to monitor a gnotobiotic facility
