

FONDAZIONE GUIDO BERNARDINI
BETTER EDUCATION FOR BETTER SCIENCE

The Fondazione Guido Bernardini is pleased to announce the
FGB Technician Training Scholarship 2016.

The FGB has established for 2016 a Scholarship that is designed to provide scientific/technical training to a technician involved in the care of animals used in biomedical research. It will be assigned to a person with at least two years of experience in laboratory animal care.

The scholarship consists in complimentary registration to attend one of the FGB 2016 training courses listed below, run in a prestigious research facility in Milan, Italy; travel and accommodation will also be provided.

Eligibility

The FGB scholarship is open to any technician from academia or industry with good knowledge of English who has demonstrated significant interest and capability in the field of laboratory animal science.

Application process

Applications must be accompanied by:

- a short statement from the responsible person of the laboratory animal facility explaining why the technician should receive the scholarship;
- CV of the candidate;
- an essay of up to 500 words describing his/her activities related to laboratory animals;
- a short statement as how the training course will improve his/her skills and career goals;
- full contact details for the candidate.

Selection Committee

The FGB Scientific Committee assesses the applications and selects the winner.

Deadline

Applicants are requested to apply by e-mail no later than **March 15, 2016** to:
secretary@fondazioneguidobernardini.org
